

FOR THE NEW GENERATION LIVESTOCK PRODUCERS.

BIOSEK, is a producer driven addition to V-PLAN.

Members are focused on setting up, managing and maintaining their farms and animal health status with the support of V-PLAN /V-NET and a team of producers and specialist service providers at a national and internationally accepted level.

The biosecurity status [a voluntary step] is confirmed by means of evaluation and audit by the dedicated herd veterinarian and marketed as BIOSEK ACCREDITED MEMBER on the BIOSEK platform for marketing purposes.

Existing [paid-up] V-PLAN members qualify without further ado as BIOSEK ACCREDITED members and will benefit from all that BIOSEK has to offer and marketed as such.

New members are supplied with guidelines FREE of CHARGE and the evaluation and audit by the dedicated herd veterinarian is arranged between the member and the Vet.

Once this voluntary step has been completed the member qualifies for BIOSEK ACCREDITATION and to be included on the national BIOSEK REGISTER as ACCREDITED BIOSEK member

BIOSEK[®]

VIR DIE NUWE GESLAG LEWENDE HAWE PRODUSENTE

BIOSEK, is n produsente gedrewe toevoeging tot V-PLAN.

Lede is daarop ingestel om hul plase en dieregesondheid status met die ondersteuning van V-PLAN /V-NET en n span raadgewers uit produsente geleedere en diensverskaffers op n nasionale en internasionale aanvaarde vlak in te rig, te bestuur, en te onderhou.

Die biosekuriteit status/protokol word deur produsente, op n vlak, wat hulle self as onafhanklike entiteite uit riglyne wat gratis deur BIOSEK voorsien word opgestel . Die protokol/status word dan, op versoek van die produsent deur middel van die kuddeveearts se evaluering en oudit bevestig.

Bestaande [opbetaalde] V-PLAN BIOSEK lede kwalifiseer sonder meer om van alle BIOSEK voordele gebruik te maak en as BIOSEK GEAKKREDITEERDE lid bevestig en bemark te word.

Nuwe lede word GRATIS van BIOSEK handleidings en riglyne voorsien en die evaluering en oudit word op aanvraag met die kuddeveearts gereel. Nadat hierdie vrywillige stap nagekom is kan die voornemende lid BIOSEK AKKREDITASIE STATUS & lidmaatskap aanvra en sodoende op die BIOSEK nasionale register as GEAKKREDITEERDE BIOSEK lid ingesluit te word.
